

SESSION 5 REDD CASE

WORKING THE REDD CASE

In this activity, you will be “working” a case from start to finish to help you gain a better sense of what the process is like for a CASA/GAL volunteer.

Materials you will need:

- Redd Case File and Notes
- Your completed genogram of the Redd Family
- Court Report template (Your facilitator will provide you with either a court report used in the local jurisdiction in which you reside or you will use the “sample court report” worksheet provided for this session).

Review the Redd case. Take notes just as you would when working a “real” case.

1. Respond to the following questions in preparation of completing the court report:

- What are the top issues that need to be addressed in the Redd case? (Please list no more than 2-3 top issues).
- What are some additional questions you might have posed to some of the key informants in the case?
- How would these questions have helped your information gathering for this case?
- Is there anyone else that you would like to interview? Why and why? If yes, who and what questions might you ask them?

2. Complete the **Court Template**. Use the one provided by your facilitator or the court template Worksheet.
